

MORE TRUTH THAN POETRY

You've had your troubles, so have we;
We've known the pinch of want,
We'll never be like old John D.
Or General du Pont.
We've never saved an awful lot
Our luck has broken hard,
But over everything we've got
Uncle Sam stands guard.

It's hard to pass up Bob or Bill
When they need five or ten;
It isn't clubby stuff, but still,
You have to now and then.
But, though you haven't very much,
And bills look pretty big,
When Uncle Samuel makes a touch
It's time for you to dig.

You've had your chance to make your way
And chart out your career,
And no one's had the right to say
"You've got to stop right here."
And all the while your home or farm,
Neath Uncle Samuel's eye
Has been kept free and safe from harm
As round the year's rolled by.

Be harsh to old John Barclaycorn
And Lady Nicotine,
Let Broadway look at you with scorn
And call you cheap and mean;
But though to layety and such
You pay no foolish toll,
When Uncle Samuel makes a touch
Just offer him your roll!

Prominent Dairymen of County On Auto Tour To Grove City, Pa.

Return Full of Ideas And Enthusiasm Over The Possibilities of Their Own Communities

The second annual Farm Bureau excursion was run to Grove City on Thursday and Friday, October 11th and 12th. This tour was not planned as a pleasure trip but was taken at the request of some of our most progressive dairymen. The section of Mercer County surrounding Grove City has grown to be one of the most interesting dairy sections in the United States and it was largely for the purpose of investigating the possibilities of development that had taken place that this trip was planned.

Promptly at ten o'clock the first contingent of the excursion pulled out of Mahaffey and took the road to Punxsutawney where they were joined by an aggregation from the DuBois district. From this point the party followed the State road thru Kittanning, Butler, Slippery Rock to Grove City. The first dairy farm visited was located on the State Road between Butler and Slippery Rock. It is owned by O. W. Stoughton and Sons and is known as one of the best dairy farms in the Western part of Pennsylvania. About 70 fine Jerseys were housed in the up-to-date dairy barn which is 120 feet long. It was after dark when the party arrived at the Commercial Club at Grove City where they received a hearty welcome from a delegation of Grove City's most progressive business and professional men. At eight o'clock we all assembled at an informal meeting held under the auspices of the Mercer County Farm Bureau and the Grove City Commercial Club at which there were several short and informal talks given by members of the Clearfield party as well as the Grove City business men and farmers.

The "big guns" of the evening were Helmer Rabold, head of the Dairy Extension work of the U. S. department of agriculture, and J. O. Thompson, who occupied a very important position in the Dairy division at Washington. Three men as well as R. R. Welch, dairy extension man located in that territory emphasized the importance of community effort if rapid and substantial dairy development is to be accomplished. Prior to the establishment of the Grove City creamery three years ago farming was a declining business in that section of Mercer county. Today more than 150 farmers are owners and breeders of Purebred Livestock and the payroll of the Government creamery exceeded \$45,000 for the month of June. The phenomenal evidence of this development are manifest in both the town of Grove City and surrounding country. Excellent public buildings, well paved and well lighted streets are

as much in evidence in the town as better livestock and better farm homes are in the country. The wonderful improvement that has taken place during the last three years has not been an accident neither has it been the result of particularly favorable economic conditions. Many other communities in Pennsylvania have an equal opportunity to do as Grove City has done. Before such ends can be accomplished, however, it will be necessary for them to profit by the lessons which may be learned by anyone who visits Grove City. All progress has been based on the principle that good feeling and the willingness to work for the common interests of all is essential. The ill feeling and suspicion that exists between farmers and business men in so many places has been entirely eliminated. Nothing could be more plainly illustrated by the meeting on Friday night than the fact that farmers and business men were standing shoulder to shoulder and were working harmoniously for the promotion of their common interests.

The name Grove City no longer stands for the name of an ordinary country town in Mercer county but it stands for a prosperous agricultural and industrial section where neither residents of city or country recognize the existence of borough lines as boundaries which alienate common interests.

Our visit to the farms the next morning further illustrated the system of development which has proven so successful. Grove City has come to be a recognized dairy section in two years because farmers are tackling the better stock proposition not as uncorrelated units but thru united community effort. Foolish prejudices for this breed or for that breed have been set aside and community unity of the three leading dairy breeds are being developed within short distances of the town. Farmers have not been able to do this work alone. The farm bureau and the dairy division at Washington have been ready at all times with assistance. The Bankers have not been able to do this work alone. The Farm Bureau and the Dairy Division at Washington have been ready at all times with assistance. The Bankers have not been able to do this work alone. The Farm Bureau and the Dairy Division at Washington have been ready at all times with assistance.

STINE FOUNDRY AT OSCEOLA IS DESTROYED

Fire Yesterday Afternoon Burned Town's Leading Industrial Plant With Heavy Loss

FIREMEN LACKED FACILITIES

Osceola, Pa., Oct. 19.—About two o'clock yesterday afternoon fire was discovered on the roof of the main building of the S. B. Stine machine shops. Although our fire company responded promptly the building together with the blacksmith shop and office were totally destroyed. A high wind prevailed at the time which with the lack of sufficient water soon convinced the authorities that it would be a difficult matter to prevent the fire from communicating to other buildings. The residence of Joseph Foreman and the house and barn of Hugh Moore were on fire several times. It is supposed the fire originated from a spark thrown on the roof by a passing locomotive.

During the progress of the fire Mr. Stine made the statement that a job of work for the British government, which would have been ready for shipment the following day and which was worth \$20,000.00, together with several other partly completed jobs were totally destroyed. Fortunately the foundry and the old machine shops of the plant both of which are situated at some distance from the main plant were not burned, so the firm will be in a position to continue right along with their work. The Hope company, of Philadelphia and members of the Houtzdale company responded to a call for assistance and gave valuable aid to our fire boys.

Bob Fitzsimmons Fights His Last Adversary

Pneumonia Floors Bob and His Friends Fear the Result

(By United Press)
Chicago, Oct. 19.—A nation-wide and greatest of all American gladiators is fighting a battle with the champion of all times—Death.

Weakening and suffering and with all hope abandoned by friends and physicians "Fighting Bob" Fitzsimmons, came into the last, in the throes of pneumonia, stammering that he will not "quit."

"I am never going to give up," he says, "I never have and I never will."

About the white sheeted "arena" in the Michael Reese hospital his "advisors and seconds" are closely watching. Among them are the greatest medical skill in the country.

Boal Machine Gun Co. Boys Are Doing Fine

Secretary Health Board Wilson Receives Letter From Son at Augusta, Ga.

Camp Hancock, Augusta, Ga.

Dead Dad and all at home; I have had quite a little trouble of late with my mail due to the fact that it is all addressed to the 108th Machine Gun Battalion and sometimes it takes a letter almost two weeks to reach me. If I remember rightly I told you that we expected to be transferred but don't think that I told you to send my mail to that address.

I received one letter yesterday and one today. Certainly was glad to hear from you folks as that is the first I have heard from home for sometime. Of course have been receiving The Progress every day but that never contains news about you folks personally.

Sorry to hear that the Clearfield County Bar association has lost two more of its members. Seems to me as the Old Father Time is thinning the ranks of the older members rather rapidly the last year or so.

Hope that your little vacation will do you some good, Dad. Anna told me that after all you believe that you liked your own home just a little better after you came from Pittsburgh. I'm with you on that Dad. When I have served my time in the army just carry me back to dear old Clearfield and home, sweet home, and I shall be perfectly satisfied for the rest of my natural life.

Tell mother not to worry about her boy as he may be home to help eat some of the things she has been canning the last while before winter is over. And also don't mind announcing that your son Hayes has been promoted to a Sergeant. Also Bruce and Dan.

Lloyd Wisner, Willard Barratt and Dorsey Polkinghorn from Woodland, have been made corporals, so that Clearfield's quota in this troop has not been so bad, do you think?

You can also see by this that we have not been doing any loafing on the job.

Our Captain told us Sunday that we may be transferred most any time to the 108th Battalion but don't really know for sure.

I have taken out a Liberty bond for \$50 and also expect to take out some government life insurance if \$38 a month will allow it. They sure do give a man big money in the army. Got paid last Monday and drew \$31. Some money, "hey boy"? Still having real nice weather down here. Suppose it is getting pretty cold up home by this time.

Well Dad tell Anna I won't forget that I owe her a letter and give my love to mother and all at home.

Your son,
HAYES WILSON

ARRANGING FOR CELEBRATION

The Exemption Board for District No. 1 and the committee in charge of the final send off for Camp Lee soldiers are arranging a suitable celebration on the occasion of the leaving of the colored men from this district who are scheduled to leave the week beginning October 27th.

There are seven colored men on the list, the only local man being Charles Groce, of Sixth street, the others being among the brickyard makers imported from the south.

85 BARRELS DAILY CAPACITY OF NEW WELL

The oil well recently struck near New Bethlehem, has settled down to a flow of 85 barrels per day and shows no diminution of strength. Rader and Beam, of the Pine Run Coal company, who put down the first hole, are now rushing work to sink three more wells and give the new field a thorough test. Other parties are also preparing to drill and from the way it looks now not even the coming of winter will stop the development of the territory.

Russians Evacuate Reval, Their Great Naval Base Port

Victory of The German Fleet In of Riga And Fear of Attack Cause of The Transfer

MAY MOVE CAPITAL TO MOSCOW

Petrograd, Oct. 19.—Evacuation by the Russians of the naval base of Reval was begun Tuesday, newspapers here declared today. The withdrawal by the Russian forces from the naval depot has been made necessary by the movement of the German great fleet which now operates on the Gulf of Riga and threatens to further a naval campaign against the gulf.

The evacuation of Reval would appear to indicate even greater menace to the Russians in the Gulf of Finland than its victory so far has indicated.

Reval is the first of the naval bases to be taken by a hostile fleet. Reval is only 200 miles from Petrograd. Before the war Reval was classified as a naval station of the second class but during the Czar's regime strongly fortified. Reval is an important defender of Petrograd other two bases in the gulf are Cronstadt. The Russians are being forced to evacuate because of the great German attacking fleet which they feared a flanking movement of the capital from Petrograd as the capital of Russia.

GO THEM ONE BETTER

THE EYES OF THE KAISER ARE ON YOU

Germany the Arch Enemy of Justice and Civilization has floated Six war loans. Yesterday she ended the Seventh. We know not what the result of her efforts were but some day we will and when that time arrives let us have the satisfaction of realizing that we have "Gone Them One Better"

WE ARE CHALLENGED

A few days ago the following manifesto was issued in Berlin:

"If Money talks, the President of the United States may learn by October 18th, when the subscription lists close, that the echo of the new war fund given by the German people will have drowned out completely the boasts of America Victory."

Let us meet that challenge by a subscription to our Second Liberty Loan, before October 27th, which will make clear to the German Military Autocracy that America marshals not alone her brave soldiers on land, her Invincible Navy on the high seas, her Industries throughout the length and breadth of this land, but as well her financial resources and that we are determined to use them to gain Freedom of the Seas, restore Belgium to her brave people and drive the German Brute from the fair land of France.

Do More Than Meet Them Half Way!

GO THEM ONE BETTER.

MORE TRUTH THAN POETRY

You've had your troubles, so have we;
We've known the pinch of want,
We'll never be like old John D.
Or General du Pont.
We've never saved an awful lot
Our luck has broken hard,
But over everything we've got
Uncle Sam stands guard.

It's hard to pass up Bob or Bill
When they need five or ten;
It isn't clubby stuff, but still,
You have to now and then.
But, though you haven't very much,
And bills look pretty big,
When Uncle Samuel makes a touch
It's time for you to dig.

You've had your chance to make your way
And chart out your career,
And no one's had the right to say
"You've got to stop right here."
And all the while your home or farm,
Neath Uncle Samuel's eye
Has been kept free and safe from harm
As round the year's rolled by.

Be harsh to old John Barclaycorn
And Lady Nicotine,
Let Broadway look at you with scorn
And call you cheap and mean;
But though to laity and such
You pay no foolish toll,
When Uncle Samuel makes a touch
Just offer him your roll!

Prominent Dairymen of County On Auto Tour To Grove City, Pa.

Return Full of Ideas And Enthusiasm Over The Possibilities of Their Own Communities

The second annual Farm Bureau as much in evidence in the town as excursion was run to Grove City on Thursday and Friday, October 11th and 12th. This tour was not planned as a pleasure trip but was taken at the request of some of our most progressive dairymen. The section of Mercer County surrounding Grove City has grown to be one of the most interesting dairy sections in the United States and it was largely for the purpose of investigating the possibilities of developing that had taken place that this trip was planned.

Promptly at ten o'clock the first contingent of the excursion pulled out of Mahaffey and took the road to Punxsutawney where they were joined by an aggregation from the DuBois district. From this point the party followed the State road thru Kittanning, Butler, Slippery Rock to Grove City. The first dairy farm visited was located on the State Road between Butler and Slippery Rock. It is owned by O. W. Stoughton and Sons and is known as one of the best dairy farms in the Western part of Pennsylvania. About 70 fine Jerseys were housed in the up-to-date dairy barn which is 120 feet long. It was after dark when the party arrived at the Commercial Club at Grove City where they received a hearty welcome from a delegation of Grove City's most progressive business and professional men. At eight o'clock we all assembled at an informal meeting held under the auspices of the Mercer County Farm Bureau and the Grove City Commercial Club at which there were several short and informal talks given by members of the Clearfield party as well as the Grove City business men and farmers.

The "big guns" of the evening were Helmer Rabold, head of the Dairy Extension work of the U. S. department of agriculture, and J. O. Thompson, who occupied a very important position in the Dairy division at Washington. Three men as well as R. R. Welch, dairy extension man located in that territory emphasized the importance of community effort if rapid and substantial dairy development is to be accomplished. Prior to the establishment of the Grove City creamery three years ago farming was a declining business in that section of Mercer county. Today more than 150 farmers are owners and breeders of Purebred Livestock and the payroll of the Government creamery exceeded \$45,000 for the month of June. The phenomenal evidence of this development are manifest in both the town of Grove City and surrounding country. Excellent public buildings, well paved and well lighted streets are

STINE FOUNDRY AT OSCEOLA IS DESTROYED

Fire Yesterday Afternoon Burned Town's Leading Industrial Plant With Heavy Loss

FIREMEN LACKED FACILITIES

Osceola, Pa., Oct. 19.—About two o'clock yesterday afternoon fire was discovered on the roof of the main building of the S. B. Stine machine shops. Although our fire company responded promptly the building together with the blacksmith shop and office were totally destroyed. A high wind prevailed at the time which with the lack of sufficient water soon convinced the authorities that it would be a difficult matter to prevent the fire from communicating to other buildings. The residence of Joseph Foreman and the house and barn of Hugh Moore were on fire several times. It is supposed the fire originated from a spark thrown on the roof by a passing locomotive.

During the progress of the fire Mr. Stine made the statement that a job of work for the British government, which would have been ready for shipment the following day and which was worth \$20,000.00, together with several other partly completed jobs were totally destroyed. Fortunately the foundry and the old machine shops of the plant both of which are situated at some distance from the main plant were not burned, so the firm will be in a position to continue right along with their work. The Hope company, of Philadelphia and members of the Houtzdale company responded to a call for assistance and gave valuable aid to our fire boys.

Bob Fitzsimmons Fights His Last Adversary

Pneumonia Floors Bob and His Friends Fear the Result

(By United Press)
Chicago, Oct. 19.—A nation-wide and greatest of all American gladiators is fighting a battle with the champion of all times—Death.

Weakening and suffering and with all hope abandoned by friends and physicians "Fighting Bob" Fitzsimmons, came into the last, in the throes of pneumonia, stammering that he will not "quit."

"I am never going to give up," he says, "I never have and I never will."

TWENTY MILLION LOANED TO FRANCE
Washington, Oct. 19.—The Treasury Department today announced a loan of \$20,000,000 to France. This makes a total loan to France of \$770,000,000 or a grand total to all allies of \$2,731,000,000.

roads on the return trip never a single one of the party interrupted for a moment that they were sorry that they had taken the trip. Their attitude indicated that they had been disappointed with the view of success in the campaign. They returned with an enlarged vision of the possibilities that exist in their own communities. It is hoped that a vision will be created but that it will be a vision of the possibilities that exist in their own communities.

Boal Machine Gun Co. Boys Are Doing Fine

Secretary Health Board Wilson Receives Letter From Son at Augusta, Ga.

Camp Hancock, Augusta, Ga.

Dead Dad and all at home; I have had quite a little trouble of late with my mail due to the fact that it is all addressed to the 108th Machine Gun Battalion and sometimes it takes a letter almost two weeks to reach me. If I remember rightly I told you that we expected to be transferred but don't think that I told you to send my mail to that address.

I received one letter yesterday and one today. Certainly was glad to hear from you folks as that is the first I have heard from home for sometime. Of course have been receiving The Progress every day but that never contains news about you folks personally.

Sorry to hear that the Clearfield County Bar association has lost two more of its members. Seems to me as the Old Father Time is thinning the ranks of the older members rather rapidly the last year or so.

Hope that your little vacation will do you some good, Dad. Anna told me that after all you believe that you liked your own home just a little better after you came from Pittsburgh. I'm with you on that Dad. When I have served my time in the army just carry me back to dear old Clearfield and home, sweet home, and I shall be perfectly satisfied for the rest of my natural life.

Tell mother not to worry about her boy as he may be home to help eat some of the things she has been canning the last while before winter is over. And also don't mind announcing that your son Hayes has been promoted to a Sergeant. Also Bruce and Dan.

Lloyd Wisner, Willard Barratt and Dorsey Polkinghorn from Woodland, have been made corporals, so that Clearfield's quota in this troop has not been so bad, do you think?

You can also see by this that we have not been doing any loafing on the job.

Our Captain told us Sunday that we may be transferred most any time to the 108th Battalion but don't really know for sure.

I have taken out a Liberty bond for \$50 and also expect to take out some government life insurance if \$38 a month will allow it. They sure do give a man big money in the army. Got paid last Monday and drew \$31. Some money, "hey boy"? Still having real nice weather down here. Suppose it is getting pretty cold up home by this time.

Well Dad tell Anna I won't forget that I owe her a letter and give my love to mother and all at home.

Your son,
HAYES WILSON

ARRANGING FOR CELEBRATION
The Exemption Board for District No. 1 and the committee in charge of the final send off for Camp Lee soldiers are arranging a suitable celebration on the occasion of the leaving of the colored men from this district who are scheduled to leave the week beginning October 27th.

There are seven colored men on the list, the only local man being Charles Groce, of Sixth street, the others being among the brickyard makers imported from the south.

85 BARRELS DAILY CAPACITY OF NEW WELL
The oil well recently struck near New Bethlehem, has settled down to a flow of 85 barrels per day and shows no diminution of strength. Rader and Beam, of the Pine Run coal company, who put down the first hole, are now rushing work to sink three more wells and give the new field a thorough test. Other parties are also preparing to drill and from the way it looks now not even the coming of winter will stop the development of the territory.

Russians Evacuate Reval, Their Great Naval Base Port

Victory of The German Fleet In of Riga And Fear of Attack Cause of The Transfer

MAY MOVE CAPITAL TO MOSCOW

Petrograd, Oct. 19.—Evacuation by the Russians of the naval base of Reval was begun Tuesday, newspapers here declared today. The withdrawal by the Russian forces from the naval depot has been made necessary by the movement of the German great fleet which now operates on the Gulf of Riga and threatens to further a naval campaign against the gulf.

The evacuation of Reval would appear to indicate even greater menace to the Russians in the Gulf of Finland than its victory so far has indicated.

Reval is the first of the naval bases to be taken by a hostile fleet. Reval is only 200 miles from Petrograd. Before the war Reval was classified as a naval station of the second class but during the Czar's regime strongly fortified. Reval is an important defender of Petrograd other two bases in the gulf are Cronstadt. The Russians are being forced to evacuate because of the great German attacking fleet which they feared a flanking movement of the capital from Petrograd as the capital of Russia.

The Wrong Man Got Into Jail Home Joke Was On Injured Husband

Stronach Russian Had Despoiler of His Home Plunk And Through a Mixup Went to Jail For Him

A couple of Russians employed at the brick works at Stronach had a peck of trouble over a woman—the wife of one of the pair in question. The woman was so sickle-minded and so fearful of the solitude of her own home that every time her husband left the house she immediately invited over and entertained the other fellow.

Some people are peculiar and the husband finally decided that he would put a stop to such doings. He came to Clearfield and made information against the wife and her paramour alleged adultery.

A friend of the husband employed a lawyer to look after his interests and on the day of the hearing the lawyer appeared at the justice's office, blind she pulled off some good stunts with all that.

The pair were brought to Clearfield and following a preliminary hearing by imputing a fine and costs and were ordered to jail by the justice reeling that the offender leaves in default of bail, for a hearing a county which he agreed to do.

When the tangle was straightened out the justice finally settled the differences during their stay in jail and departed arm in arm, again on the day of the hearing the lawyer appeared at the justice's office, blind she pulled off some good stunts with all that.

PLEADS HIS CASE

In the adjoining column we print a statement presented to us by District Attorney Welch. In presenting this statement Mr. Welch is evidently laboring under the impression that we charged him with being the originator of the idea of employment of extra counsel. This statement is offered in support of the claim of the campaign manager that "they all did it before, why shouldn't he do it?"

The voters must decide on whether they want the older of things continued or whether there is not room for improvement in public affairs as well as in private enterprise.

The present salary of the District Attorney is a fact for consideration. District Attorney Welch receives for his services a set salary which is greatly in excess of the fees received by former District Attorneys. Another thing, the present District Attorney is paid a salary while his predecessors worked on a fee basis and had to hustle to hunt up business. With them it was a case of "no work—no pay."

Yesterday the Welch campaign organ came off the press and, as we predicted, there is no attempt to explain the settlement of the Mead case. In the statement of the District Attorney no reference is made to it.

WORTH MORE MONEY

A few years ago a man building a house or store had to haul the excavated earth away at his own expense and make arrangements for a dumping place. Today he can sell all the excavates and in addition to that, as a general rule, there is somebody after him for it.

Even the lowly sawdust pile is becoming a thing of value. On the sites of gigantic western mills there is growing quite an industry in reclaiming chemicals from the half rotted mass. Cull banks and honey piles which bothered mining men of five years ago are now being loaded into coal cars and shipped to be used as fuel and to large chemical plants where they extract carbon, sulphur and other by-products.

Everything is on the upward climb. How about what you own? Your property for instance. Could you replace it for what it cost you? Of course not. Should it burn tonight would you be protected? Are you protecting yourself in these upward rising values? Every property owner should read the contents of Page Three. It will open up a new vision.

Yesterday at Harrisburg a large railroad company filed a request with the Public Service Commission asking that they postpone elimination of grade crossings entirely until after the war. On the heels of this request came a petition from another railroad company asking for permission to abolish a grade crossing at Erb, Blair County, Pennsylvania.

Can Clearfielders guess the name of the two railroad companies?

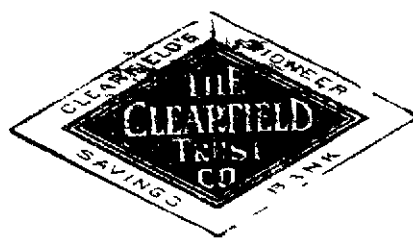

"America had better look out after this war. I shall stand no non-sense from America after the war." This is what the Kaiser told Ambassador Gerard. Your subscription to the Liberty Loan will put us in shape to bring Bill to his senses.

FACTS vs. INSINUATIONS

The Clearfield Progress has endeavored to leave the impression with the public that the appointment of counsel for and the district attorney in prosecution of murder cases is an innovation, originating with the present incumbent, and intended to mislead the voters. A careful examination of the Oyer and Terminer records, how that from the early days of the county down to the present time, it has always been the practice. The following record will probably be of interest:

Murder trials in Clearfield County and attorneys for Commonwealth

DUBOIS HOSPITAL DAMAGED BY FIRE

The DuBois hospital was damaged to the extent of \$500 by a light fire Wednesday evening.

This recalls to us right now that the Clearfield hospital directors should have a fire plug located a little bit nearer to the local hospital. At the present the nearest plug is several hundred feet down Lunkin's creek and in case of a fire at the institution this would be a decided handicap to the firemen.

WON'T STAY TIED

A. R. Chase, Esq., on behalf of Mrs. Annie Conner, filed a petition in the Prothonotary's office this morning in which she seeks a divorce from her husband, John Conner, to whom she was married in November, 1902, and who died in April, 1905, that he had had enough of married life and he is not getting pastures.

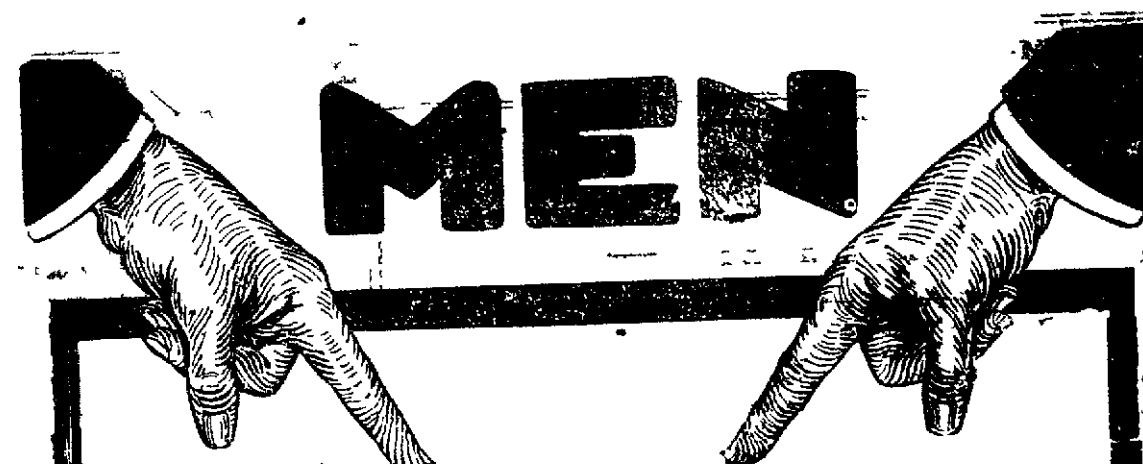

All suits portend a change in the management of the New York Yankees in the near future. Phil T. Will Bill Donovan has talked to Earl the Yankees' manager, and talk in a sequence listed for a past note.

YOUR FIRE INSURANCE

(unless it has been increased upon the basis of actual present values,)

No Longer Protects Your Risk

Because, since 1914---due to constantly advancing costs of labor and material--your HOME--your BUILDING--your MACHINERY--your FURNITURES--your MERCHANDISE--your HOUSEHOLD FURNISHINGS--RUGS, CARPETS, TEXTILES--have greatly increased in value.

Suggestion: Get out your fire insurance policies today--and write or telephone your insurance agent for information that will surely benefit you

From one out of every 42 structures in Clearfield county, a fire-alarm was sent in last year!

That's how near the danger of a fire-loss is to YOU.

Your turn may be next. There will be the loss in actual values, in profits in rebuilding undestroyed portions of buildings (unless your policy also covers rents, profits, and demolition.) There will be the loss of time, the loss of irreplaceable records and belongings, the costs of personal injuries, the inconvenience.

These are enough to suffer without the additional burden of losses through not carrying enough fire insurance.

Rising costs have made what you own more valuable. Whether household furnishings, merchandise, fixtures, machinery or buildings, you could not replace them today for what they cost. You have been adding furnishings, equipment, fixtures and making improvements. All have further swelled the value of your possessions.

Yet you carry fire insurance based on those old inventories--those old costs. You are under-insured against fire. (This applies with even greater force to those whose policies bear "Contribution Clauses.")

Do you know that fire insurance companies will pay you the "actual cash value at the time when such loss shall happen"--in other words, the existing market or replacement value--if you will properly insure?

Everything costs more today. Bradstreet, Babson, Moody and other statisticians show it now takes \$1.50 to \$2.50 to purchase what \$1 would buy three years ago. Yet if your property is located within Clearfield county it can today be adequately insured against fire, on the basis of its present value, at a rate averaging about one-fourth less than was in force four years ago.

Put your property under a proper-sized cover of protection. The fire that may occur today as easily as tomorrow may find you but partly protected as shown in the illustration above.

Get out your policy! Figure your present worth. (Your insurance agent will show you how to do this if you ask him). You'll find yourself exposed to needless losses that a few cents per day will, in most cases, end.

Telephone or call upon your insurance agent--or better, send him the coupon below--or write him (his address is on your policy). Meet him half way. Have him talk it over with you. He'll gladly do it--and without any obligation.

Don't delay! One of the fire-alarms tomorrow may find financial loss staring you in the face.

Ruddy Cheeks—Sparkling Eyes
—Most Women Can Have
Says Dr. Edwards, a Well-Known
Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system. If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.

GO THEM ONE BETTER

THE EYES OF THE KAISER ARE ON YOU

Germany the Arch Enemy of Justice and Civilization has floated Six war loans. Yesterday she ended the Seventh. We know not what the result of her efforts were but some day we will and when that time arrives let us have the satisfaction of realizing that we have "Gone Them One Better"

WE ARE CHALLENGED

A few days ago the following manifesto was issued in Berlin:

"If Money talks, the President of the United States may learn by October 18th, when the subscription lists close, that the echo of the new war fund given by the German people will have drowned out completely the boasts of America Victory."

Let us meet that challenge by a subscription to our Second Liberty Loan, before October 27th, which will make clear to the German Military Autocracy that America marshals not alone her brave soldiers on land, her Invincible Navy on the high seas, her Industries throughout the length and breadth of this land, but as well her financial resources and that we are determined to use them to gain Freedom of the Seas, restore Belgium to her brave people and drive the German Brute from the fair land of France.

Continuous Price Advances
Prompts Immediate Purchasing
With prices soaring, we strongly
urge our customers to lay in
their supplies of Autumn and
Winter needs just as early as
possible, so that they may secure
full 100 per cent. service from
every dollar expended.

At this time of the new season,
when everyone is busy thinking
of changing their summer rain-
ment to a fresh, new Autumn
garb—our store should prove of
particular interest; as well as
the center of activity for those
who are thrifty and who want to
secure the greatest values possi-
ble.

This is by no means the first time we have caused wide-spread interest by our un-
expected way of doing things in Clearfield. But right at this time, when the thrifty
are eagerly scanning the newspaper columns for any opportunity to reduce household
expenses and overcome the bugbear of rapidly advancing prices on foodstuffs as well
as wearables—this series of Autumn Sales Commands The Greatest Possible Interest

Close observation and reading of the items listed here will convince you of the ex-
traordinary scope of merchandise involved; for values are such as to stamp them as Unusual

October Sale of Waists

WAISTS—WAISTS—WAISTS
A Wonderful Sale at \$1.00

You'll hardly be able to believe your eyes when you
see this sale of waists at \$1.00. Made of white cotton
voile in styles so numerous that we won't start to de-
scribe them. Sufficient to say that you'll get the big-
gest waist value for \$1.00 that you ever were fortunate
enough to share in.

Charming Crepe de Chine Blouse at \$3.95

There are times when you feel you want only the
very prettiest and smartest waist money can buy.
This is a new conception that is youthful, becoming
and designed especially for dressy wear. Undoubt-
edly, has one of the prettiest combination trimming ideas
in collar and cuffs we have yet seen in the new Fall
blouses.

Dainty, Sheer, Lovely Georgette Crepe Blouses
Regular \$6.00 Values at \$1.95

Looking into the markets for a group of blouses
that would merit the place of honor in our waist sec-
tion, we alighted upon these—and in less than a day
had placed our order and the shipment was coming to
Clearfield.

When you view them on display ask yourself this
question: "Have I ever seen anything more becoming—
prettier—than these?" Your answer will be the im-
mediate selection of at least two different styles.

They show trills a plenty—dainty lace edgings, tiny
tucks—as a matter of fact embody every trimming
idea that is pretty and fashionable.

Another Shipment of Fall Suits
At \$25. The Best Values Yet

These new garments are the last word in suit
fashions. They are in the new, modern and most cost-
ed models. They are made of serge, poplin, broad
cloth gabardine and are very direct very trim with
braid and buttons. Some have fur trimmings, and only
one or two of a style.

Other good values in suits from \$17.50 to \$87.50

Our Millinery Showing Is Invariably Up-to-the-minute
and Complete.

That is the way we do things. When our buyers were in New York they had instruc-
tions to promote personal relations with the foremost millinery houses so that we could de-
pend on them sending us their best numbers as the season advanced. This accounts for the
fact that you always find our show room replete with the newest creations and fashion's whims
in millinery just as soon as they are launched by fashion leaders in New York.

A Chilly Day---A Soft Warm
Sweater from \$4.75 to \$13.50

You snap your fingers at cold biting days when
you're the happy possessor of a warm sweater.

The sweaters this year are more than ordinarily
pretty. They come in bright and subdued colors, and
in a goodly variety of plain and fancy weaves. There
are solid-color sweaters, and two-toned effects which
show very attractive use of color contrasts in trim-
mings. Built on graceful lines conforming to the pre-
sent fashionable figure—prices 4.75 to \$13.50

Combine Patriotism and Pleasure
By Knitting for the Soldiers

Knitting is perfectly fascinating. But we needn't
tell you that. If you're an up-to-date woman (and of
course you are) you know all about it. Here's your
chance then. The soldiers are going to need all sorts
of things—sweaters, mufflers, mittens, socks, wrist-
lets. We've the wool here a good supply of it, in
all the desirable dark colors, such as black, grey, blue
and brown.
